## THE LEGEND OF THE TIMBER WOLF

Driven into the barren forests of the High North, the great Timber Wolf became a legend of howling terror in the tall pines. A legend that struck fear into the hearts of even the bravest.

In 1908 the legend comes to Worlds of Fun. The massive, most vicious wooden roller coaster ever created — The Timber Wolf.

A swift and unforgiving beast, it stalks its prey and daws its way skyward to dizzying heights. Then plummet to within inches of the earth. Whining and cawing, even shooting through itself, it unrelentably carves over a twisted course almost a mile long.

Now the legend lives. The Timber Wolf is out to get you.

Scream if you will. But only the woods will hear you howl.

At Worlds of Fun and Oceans of Fun, excitement and adventure are yours for a reasonable price every day. Where else can you enjoy an entire day of fun for less? A day at Worlds of Fun or Oceans of Fun is truly your best entertainment value!
